Secador® 5.0 Desiccator Cabinets

The Secador 5.0 is available in three models. A non-electric model for use with desiccant, two desiccant free electric models, and a digitally adjustable model for easy control of relative humidity. These desiccators are an ideal solution for storage of laboratory reagents and samples, optical equipment, electronics, and 3D printing filament.

- High density foam gaskets keep ambient humidity out and dry air inside
- Clear polycarbonate panels are durable and allow for easy viewing of contents
- LCD displays internal temperature and humidity level
- Non-electronic model can be used with any Bel-Art desiccant product
- Includes 3 adjustable and removable shelves
